

.093” Soft Density Silicone Sponge Sheet

Specification Sheet

Description:

Silicone Elastomers provide the maximum in reliability—whether exposed to adverse environmental conditions, stored for indefinite periods, or used under normal conditions. Resisting conditions which normally cause rubber to deteriorate, silicone rubber offers useful life which is unmatched by other known elastomers. It resists temperature extremes, ozone, corona, radiation, compression set, moisture, weathering and chemical attack.

Physical Properties:

• Color	Red
• Other colors available upon special order	
• Density—Lbs/Cu In	.013/.016
• Compression Deflection	2—7 PSI
• Recovery after 50% deflection	70% min.
• Water Absorption	5% Max
• Tensile	75 Psi min
• Elongation	350% min
• Temperature Range	-100—+500
• Flamability Rating	
• Meets requirements for flame test UL94 HB	YES
